Subject: S1130-Water Meter Location Query – 6 Strawson Road, Northfield

Hi Justin,

Thank you for taking the time to discuss this with me over the phone.

As discussed, I'm outlining below our queries regarding the water connection arrangements for our project at 6 Strawson Road, Northfield.

1. Water Meter Location – Lot 251

During our telephone conversation on 08/09/2026, we discussed the proposed water meter location for Lot 251. It was agreed that the meter would be positioned approximately 5.5–6.0 metres from the northern boundary, within the front garden area. This location was selected because there is an existing driveway/crossover in the area where the meter is currently proposed, and we wanted to avoid locating the water meter within the driveway.

However, the latest proposed water meter location we have received is significantly different from the location discussed and agreed during our conversation. Could you please review this and amend the proposed water meter position to approximately 5.5–6.0 metres from the northern boundary, within the front garden area, as previously discussed?

2. Existing Wastewater Connection – Lot 26 Easement

Could you please clarify the requirement relating to the existing wastewater connection? The invoice states: "DISCONNECT 100MM IP, 11.0M FROM MS ID: 6087048 WITHIN EASEMENT OF LOT 26." Our understanding is that Lot 26 is an adjoining property and is not part of our development site. Could you please clarify why this existing connection is required to be disconnected and why the associated cost has been charged to our application?

3. 20 mm Unmetered Non-Standard Water Connection

Could you also please clarify the charge described on the invoice as: "20mm

Unmetered Non-Standard Water Connection." Could you please advise what specific works are included under this charge and why the connection has been classified as non-standard for this project? We would appreciate a breakdown or explanation of this item so we can understand exactly what works are being charged for before proceeding with payment.

Kind regards,
Shrishti Ghosh
